 05-9505  
 Low Price \$79.99 4 @ \$76.99

ANESTHETICS

topical anesthetics

**Topical Anesthetic Gel**  
 For oral mucosal application. Contains 20% Benzocaine for numbing the gums. It is a flavored polyethylene glycol base sweetened with saccharin (artificial sweetener). Has a rapid onset (15-20 seconds) and lasts for a short period (12-15 minutes) with virtually no systemic absorption. Smooth, even consistency lubricates and anesthetizes.  
 1oz (30g) bottle

lotion

**Cranberry® Organic Essensoy Hand Therapy**

Cranberry Organic Essensoy lotions contain organic soy lipids that are extracted without use of chemicals to preserve the vital benefits of natural vitamin E, Essential Fatty Acids (EFA) and Lecithin. The formula is blended with natural botanical extracts of Rosehip Seed Oil, Jojoba Oil and soothing Aloe Vera and contains no dyes or mineral oil.

**Cranberry Essensoy Deep Treatment Skin Therapy Cream**

The highest concentration of organic soy lipids formulated to treat severely dry areas by deeply penetrating and protecting skin from dermatitis caused by occupational exposure. Apply a tiny drop, 2-3 times a day, to effectively nourish and treat dry, chapped skin.

**NEW PRODUCT**

**About Us**

iSmile Dental Products is a group of dedicated professionals who have worked in the dental products industry for over 15 years. We have the experience, knowledge and resources to bring quality consumable and disposable dental products to the market. Our products are the kind of items you use daily with every patient: gloves, masks, 2x2's, saliva ejectors, pouches, bibs, tray covers, impression materials and the like.

These commonly used products can be a major expense for every dental practice. However, that's not the case when you buy from iSmile. We source our products directly from the factories and sell them direct to you. By doing so, we are able to cut out the middleman distributor and pass the savings on to you. Our prices are, on average, 25% less than the large national distributors.

iSmile consumables and disposables are quality products, and because we source our them directly from the factories and sell them direct to our customers, we can sell them at discount prices. Quality and Discount - Yes, you can have both at iSmile Dental Products

**iSmile Dental Products - your Direct Source for Quality Products at Discount Prices**

film processor solutions - automatic processing

READYMATIC Dental Chemicals

For use in all automatic roller-transport dental x-ray film processors. Delivers clear, consistent results for all intraoral and extraoral radiographs. Ready to use - no mixing required. No starter needed. Excellent film transportability and sensitometry. Specially formulated to limit residue on rollers and in tanks.

Dental Chem Pack

2 - 1 gallon bottles of Developer and Replenisher  
2 - 1 gallon bottles of Fixer and Replenisher  
65-8200

Price \$52.99 4 @ \$49.99  
Sale **\$50.99 4 @ \$47.99**

Dental Developer and Replenisher

1 gallon bottle  
65-8205  
Low Price \$14.99 4 @ \$14.49

Dental Fixer and Replenisher

1 gallon bottle  
65-8210  
Low Price \$18.99 4 @ \$18.49

RP X-OMAT Chemicals

Formulated to produce consistently high-quality images from KODAK Extraoral and Intraoral Film. Specially prepared chemical compounds have been added to the developer to optimize film-transport characteristics during processing. The low-odor fixer and replenisher washes out of developed film in either ambient or tempered water. Some mixing is required.

Developer and Replenisher

film processor solutions - manual processing

RAPID ACCESS Chemicals

Designed for manual processing of KODAK Insight and Ultra-speed Dental Film. These ready-to-use solutions require no mixing. Especially useful to dental specialists because they produce ready-to-read radiographs conveniently, simply, and quickly. At room temperature, radiographs are suitable for viewing in 30 seconds (15-second development, 15-second fix).

Twin Pack

1 pint Dental Developer,  
1 pint Dental Fixer  
65-8100  
Low Price \$12.49 12 @ \$11.99

READYPRO Dental Chemicals

Designed for use with automatic, rollerless, dental processors, and can be used for the processing of all KODAK intraoral dental film. Chemicals meet all current processor specifications and are specially formulated to enhance processor performance. Simply pour the pre-measured, ready-to-use developer and fixer into the processor tanks - no mixing or diluting required.

Developer & Fixer

1 quart Developer, 1 quart Fixer  
65-8300

x-ray mounts

X-RAY

**X-Ray Mounts**

Made from the highest quality plastic, mounts are designed to hold rapidograph firmly in place. Stain-resistant and impervious to darkroom chemicals. Slim profile allows mounts to fit easily into files and envelopes. Made in the U.S.A.  
package of 100

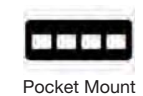

**Standard Mounts** Compare to Rinn 77 Series  
Radiographs load easily and securely by precision, die-cut construction with Lock-in tab loading system.

**Clear-Edge Mounts** Compare to Rinn 79 Series  
Transparent edges for full-frame viewing and peripheral clarity. Professional presentation for patient referrals.

**Pocket Mounts** Compare to Rinn 21 Series  
Radio frequency welded seal secures radiographs in pocket. Broad viewing area exposes the entire radiograph, and enhances pathology detection. Radiographs can be duplicated in the mounts.
